

3D printing at POINT OF CARE

POC 3D PRINTING

It's More Feasible Than
You Think!

WHAT CAN I PRINT IN MY POC?

POC 3D PRINTING

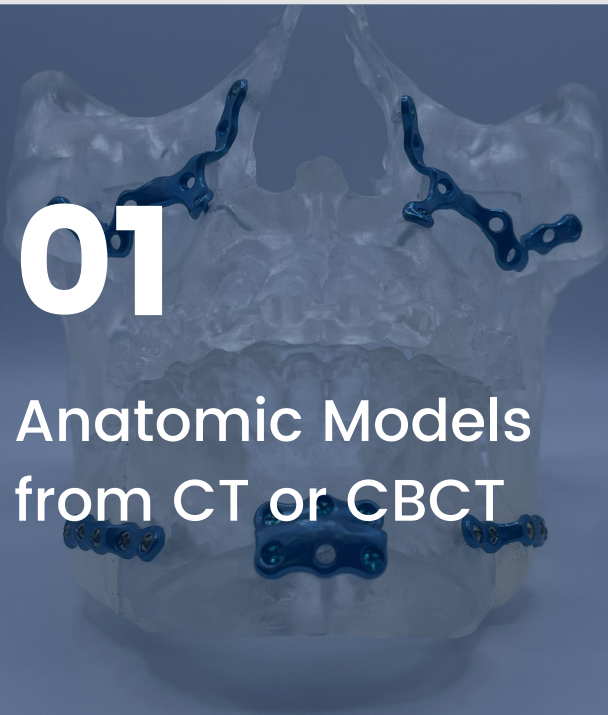

03

Surgical
guides

01

Anatomic Models
from CT or CBCT

04

Orthognathic
splints

04

Dental models
from scanner

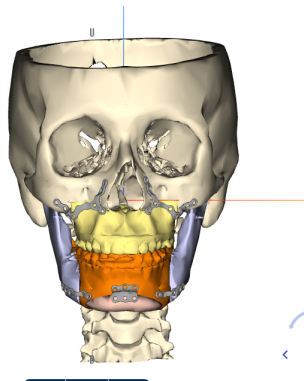

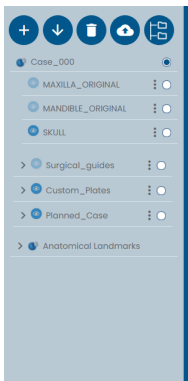

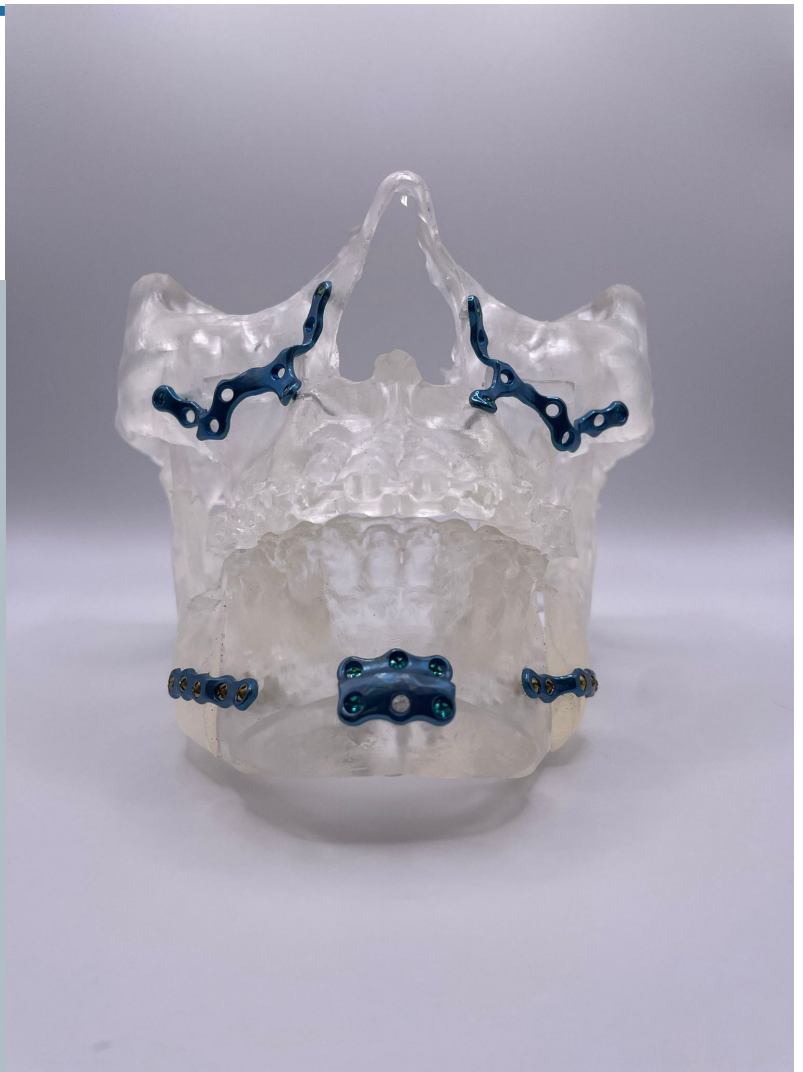

05

Any additional
needs

TAKE YOUR PRACTICE TO THE NEXT STEP

Starting with 3D printing

HOW DO I START?

Not matter the size or the budget of your POC, we will adapt to your needs with a monthly subscription or pay per case option.

- Printer setup
- Training & Qualification
- Digital planning sessions
- Digital Files ready to be printed

WHY 3D PRINTING?

SAVE TIME

Your splints, anatomic models, even dental models and surgical guides are now just a click away

LESS COMPLICATIONS

Anticipate situations in the OR by 3D printing anatomic models and surgical guides

COST EFFECTIVE

Zero investment in software and hiring expert engineers
